INDEPENDENT AUDITORS' REPORT

Board of Directors Shasta Joint Powers Financing Authority Redding, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Shasta Joint Powers Financing Authority (the "Authority"), a component unit of the County of Shasta, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the component unit's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Directors Shasta Joint Powers Financing Authority

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of the Authority at June 30, 2021, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis and budgetary comparison schedules that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2021 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Notes to the Financial Statements June 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Reporting Entity

The Shasta Joint Powers Financing Authority (Authority) was created on May 29, 1990, as a result of a Joint Exercise Powers Agreement between the County of Shasta (County) and the Successor Agency to the Shasta County Redevelopment Agency (Agency), formerly Shasta County Redevelopment Agency. The Authority is empowered to exercise any powers common to the County and the Agency.

The Authority's purpose is to finance public capital improvements. The Authority undertakes the sale and issuance of bonds. Bond proceeds are then used to design, construct, and acquire public capital improvements and lease, lease-back, sell, or re-sell such improvements to the County.

The Agreement is effective until July 1, 2030, unless extended or terminated by supplemental written agreement between the County and the Agency. The Agreement cannot terminate while any bonds remain outstanding. Upon dissolution of the Authority, any surplus assets shall be returned to the County and the Agency.

The Authority is a component unit of the County, and accordingly, is included in the basic financial statements of the County because the County's Board of Supervisors exercises oversight responsibility over the operation of the Authority and the Authority provides specific financial benefits to the County. Only the accounts of the Authority are included herein; therefore, these financial statements do not purport to represent the financial position or results of operations of the County. The financial data of the Authority is included in the County's annual financial report. Administrative costs of the Authority are paid by the County and are not included in the accompanying financial statements.

B. Basis of Presentation

Government-Wide and Fund Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, while the governmental fund financial statements are reported using the current financial resources measurement and the modified accrual basis of accounting.

The operations of the fund statements are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues, and expenditures. Authority resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The Authority uses the following fund:

Governmental fund types account for the activities of the Authority. The measurement focus is based upon spending or financial flow and the determination of changes in fund balance (net current assets). The following are the Authority's governmental fund types:

General fund accounts for the accumulation of financial resources for, and the payment of, general long-term debt principal, interest and related costs.

The statement of net position and statement of activities columns reflect consolidated results of operations using the accrual basis of accounting and eliminating all interfund activity.

Basis of Accounting refers to when revenues and expenditures are recognized in the accounts and reported in the basic financial statements. Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available as net current assets. Revenues not considered available are recorded as deferred revenues. Revenues considered susceptible to accrual include interest and lease payments. Expenditures are generally recognized when the related fund liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due.

The statement of net position and statement of activities columns represent operations on the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Capital Assets are not capitalized in the accompanying financial statements as they are reported as a financed purchase in the County.

Investment in Lease to County of Shasta is recorded as direct financing leases to the County. The County may, pursuant to the lease agreement, abate the lease payments by the amount of investment interest income earned by the trustee on the reserve and lease payment accounts.

Bond Issuance Costs are expensed immediately, as incurred, except for bond insurance costs which are amortized on a straight-line basis over the life of the related debt obligations.

Bond Premium and Discount are amortized on a straight-line basis over the life of the related debt obligations which is not materially different from the effective interest method.

Restricted Fund Balance includes amounts that can be spent only for specific purposes stipulated by external parties (such as creditors, grant providers, or contributors) or by law.

Use of Estimates in preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America are required by management as well as assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: <u>EXPLANATION OF ADJUSTMENTS BETWEEN THE GOVERNMENTAL FUNDS</u> BALANCE SHEET AND THE STATEMENT OF NET POSITION

The long-term investment in the asset of the County of Shasta and corresponding long-term debt obligations are not due and payable in the current period for governmental funds.

Lease repayments in the governmental funds are reported as revenues as they increase fund balance and reflect an inflow of current resources. However, the statement of net position includes the investment in the lease to the County of Shasta and long-term debt obligation of \$ 22,674,971 and \$ 23,002,086 respectively.

Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when legally due. However, the statement of net position reflects interest payable as the obligation is incurred in the amount of \$ 174,475. Concurrently, interest receivable from the County in the amount of \$ 174,475 is not an available resource for the governmental funds. However, the statement of net position reflects this receivable as the interest has been earned.

Prepaid insurance costs of \$ 131,806 are assets that are not available financial resources for the governmental funds. However, this cost is capitalized in the statement of net position and amortized over the life of the of the related debt obligations.

The differences arising from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental funds balance sheets are summarized as follows:

Fund balance as of June 30, 2021	\$	30
Investment in County lease receivable	\$ 22,674,971	
Accrued interest receivable	174,475	
Bond issuance costs	131,806	
Revenue bonds payable	(23,002,086)	
Accrued interest payable	(174,475)	
Total Adjustments		(195,309)
Net position as of June 30, 2021	\$	(195,279)

NOTE 3: EXPLANATION OF ADJUSTMENTS BETWEEN THE GOVERNMENTAL FUNDS REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE AND STATEMENT OF ACTIVITIES

Lease repayments in the governmental funds are reported as revenues as they increase fund balance and reflect an inflow of current resources. However, principal lease repayments of \$ 2,134,856 are a reduction of the investment in the lease with the County and do not result in income in the statement of activities. In addition, the net change in the interest receivable from the County of \$ 12,663 represents a reduction of earned interest income in the statement of activities.

Repayment of bond principal is reported as expenditure in governmental funds and, thus, has the effect of reducing fund balance because current resources have been used. However, the principal payments of \$ 2,135,000 reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities.

Interest expense in the statement of activities is reported when incurred in contrast to governmental funds where it is recorded when legally due. As a result, interest expense in the statement of activities is \$ 12,663 less than the amount reported in the governmental funds revenues, expenditures and changes in fund balance.

The effects of the differences for amounts reported in the statement of activities are summarized as follows:

Net change in fund balance - governmental funds		\$ (144)
Lease principal payments	\$ (2,134,856)	
Change in interest receivable	(12,663)	
Change in interest payable	12,663	
Repayment of bond principal	2,135,000	
Amortization of bond issuance costs	(12,261)	
Amortization of bond premium/(discount)	30,427	
Total Adjustments	_	18,310
Change in net position of governmental activities	_	\$ 18,166

NOTE 4: RESTRICTED INVESTMENTS

Under the terms of the indenture agreements, the trustee receives and disburses all Certificates of Participation (COP) proceeds and income of the Authority. The trustee also acts as paying agent and COP registrar for the Authority. The Authority's investments are recorded at fair market value.

The indenture agreements also provide for the establishment of special accounts, all to be held and administered by the trustee in accordance with the provisions described in the indenture agreements, lease payments received from the County are recorded in restricted asset accounts.

At June 30, 2021 the Authority had the following investments:

Cash and Investments	
Money Market Funds	\$ 30
Total Cash and Investments	\$ 30

The Authority maintains all its cash and investments outside Shasta County's investment pool. Required disclosure information regarding categorization of investments and other deposit and investment risk disclosures can be found in the County's financial statements. The County of Shasta's financial statements may be obtained by contacting the County of Shasta's Administrative Office at 1450 Court Street, Suite 308A, Redding, CA 96001. The Shasta County Treasury Oversight Committee oversees the Treasurer's investments and policies.

Government Accounting Standards Board Statement No. 40 requires additional disclosures about a government's deposits and investments risks that include credit risk, custodial risk, concentration risk and interest rate risk. The Authority has no deposit or investment policy that addresses a specific type of risk.

Required disclosures for the Authority's deposit and investment risks at June 30, 2021 were as follows:

Credit risk Custodial risk Concentration of credit risk Interest rate risk Not rated N/A N/A Not available

Authorized Investments

The Authority is authorized to make direct investments in local agency bonds, notes or investments within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies/certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

NOTE 7: RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and distribution of assets; errors and omissions; and natural disasters.

Because of the close relationship between the Authority and the County of Shasta, the Authority's liability coverage is provided by the County's insurance policies. Complete information on risk management can be found in the County of Shasta's audited financial statement.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Shasta Joint Powers Financing Authority Redding, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Shasta Joint Powers Financing Authority (the "Authority"), a component unit of the County of Shasta, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated December 10, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

Board of Directors Shasta Joint Powers Financing Authority

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
