INDEPENDENT AUDITORS' REPORT

Board of Supervisors
County of Shasta
Redding, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the Transportation Development Act activities allocated to the County of Shasta (County) for transit and non-transit purposes as of and for the year ended June 30, 2022, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Transportation Development Act activities allocated to the County of Shasta for transit and non-transit purposes as of June 30, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County of Shasta and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of a Matter

As discussed in Note 1, the financial statements of the Transportation Development Act activities allocated to the County of Shasta for transit and non-transit purposes are intended to present the financial position, the changes in financial position, and where applicable, cash flows of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Shasta that is attributable to the transactions of the Transportation Development Act activities allocated to the County of Shasta for transit and non-transit purposes. They do not purport to, and do not, present fairly the financial position of the County of Shasta, as of June 30, 2022, the changes in its financial position, or where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of County of Shasta's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Report on Summarized Comparative Information

We have previously audited the County’s Transportation Development Act Activities 2021 financial statements, and we expressed unmodified opinions on our report dated November 19, 2021. In our opinion, the summarized comparative information presented here in as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 24, 2023 on our consideration of the County’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

COUNTY OF SHASTA
TRANSPORTATION DEVELOPMENT ACT ACTIVITIES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Transportation Development Act (TDA) activities of the County of Shasta (County) are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The County applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

A. The Reporting Entity

The Transportation Development Act (TDA) Road Fund is a special revenue fund used to report the TDA funds that will be expended on street and road projects within the County of Shasta. The Transit Fund was established during fiscal year 1993/94 to operate the County's rural transit services and to account for the TDA funds received to support it. The Redding Area Bus Authority has been contracted to provide the services.

The financial statements of the Road Fund and Transit Fund are included in the basic financial statements of the County. These statements present only the TDA Road Fund's revenues and expenditures pertaining to Article 8, Section 99400(a), and Article 3, Section 99233.3 of the Public Utilities Code recorded in the Road Fund. These statements present only the Transit Fund and a portion of the activities of the Road Fund and they do not purport to, and do not, present fairly the financial position of the County of Shasta as of June 30, 2022, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

B. Basis of Presentation

The TDA activities recorded in the Road Fund of the County are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A sixty-day availability period is used for revenue recognition for governmental fund revenues. Expenditures are recorded when the related fund liability is incurred.

The TDA activities recorded in the Transit Fund of the County are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Proprietary funds operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as refunds and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses include the cost of operations, administrative expenses, operating expenses, and depreciation.

COUNTY OF SHASTA
TRANSPORTATION DEVELOPMENT ACT ACTIVITIES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

C. Cash in County Treasury

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County. The County pools idle cash from all funds for the purpose of increasing income through investment activities. Cash deposits are stated at cost, which approximates fair value. Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 40. Investment income is recorded as revenue in the individual funds based on the computed average interest rate of all investments and the average daily cash balance of each fund.

D. Net Position

In the Statement of Net Position, Net Position may be classified in the following categories:

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

Unrestricted Net Position – This amount is all net position that do not meet the definition of "net investment in capital assets" or "restricted net position" as defined above.

E. Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2: CASH AND INVESTMENTS

All of the cash and investments of the TDA activities are maintained in the Shasta County Treasury. The County follows the practice of pooling cash and investments of all funds except for funds required to be held by outside fiscal agents. Interest income earned on pooled cash and investments is allocated quarterly to the various funds based on the aggregate daily cash balances.

The pooled treasury has regulatory oversight from the Shasta County Treasury Oversight Committee in accordance with California Government Code requirements. The fair value of the position of the TDA activities in the pool is materially equivalent to the value of pool shares.

The cash and investments of the Transit Fund as of June 30, 2022, is displayed on the balance sheet as follows:

Cash and investments	<u><u>\$ -</u></u>
----------------------	--------------------

**COUNTY OF SHASTA
TRANSPORTATION DEVELOPMENT ACT ACTIVITIES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

Concentration of Credit Risk – As noted above, 100% of the investments of the TDA activities are maintained in the Shasta County Treasury.

The TDA activities are unable to determine the investment types, investment maturities, interest rate risk, credit risk, investment ratings and custodial risk.

Copies of the County of Shasta financial statements may be obtained from the County of Shasta at 1450 Court Street, Room 238, Redding, California 96001.

NOTE 3: DUE FROM OTHER GOVERNMENTAL AGENCIES

Due from other governmental agencies includes \$332,872 from the State of California Department of Transportation and the Redding Area Bus Authority.

NOTE 4: DUE TO PRIMARY GOVERNMENT

Due to Primary Government is \$186,463, which is short term financing until accrued revenues are received.

NOTE 5: DUE TO OTHER GOVERNMENTAL AGENCIES

Due to other governmental agencies is \$146,184, which is due to Redding Area Bus Authority at fiscal year-end.

NOTE 6: FARE REVENUE RATIO

The Transit Fund is required under the Transportation Development Act to maintain fare revenue to operating expenses ratio of at least 10% for the transit services. However, according to the FY 2021/2022 Transit Needs Assessment Report provided by Shasta Regional Transit Authority, the FY 21/22 minimum farebox recovery requirements have been waived due to the COVID-19 pandemic and a fare study and short-range transit plan are being worked on to evaluate potential modifications.

The calculation of the fare revenue ratio for the year ended June 30, 2022, is as follows:

Fare Revenues	<u>\$ 10,930</u>
Operating Expenses	<u>\$ 257,052</u>
Fare Revenue Ratio	<u>4.25%</u>

**COUNTY OF SHASTA
TRANSPORTATION DEVELOPMENT ACT ACTIVITIES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

NOTE 7: COMPLIANCE REQUIREMENTS OF LOCAL TRANSPORTATION FUNDS

The TDA is defined commencing at Chapter 4 of the California Public Utilities Code Section 99200. Funds received pursuant to Section 99233.3 of the TDA (Article 3) may only be used for bicycle and pedestrian projects. Funds received pursuant to Section 99400(a) of the TDA (Article 8(a)) may only be used for local streets and roads and projects which are for use by pedestrians and bicycles.

NOTE 8: COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

NOTE 9: RISK MANAGEMENT

The TDA activities are exposed to various risks of loss related to torts; theft of, damage to, and distribution of assets; errors and omissions; and natural disasters.

Because of the close relationship between the TDA activities and the County of Shasta, the liability coverage for the TDA activities is provided by the County's insurance policies. Complete information on risk management can be found in the County of Shasta's audited financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS AND COMPLIANCE WITH THE TRANSPORTATION DEVELOPMENT ACT, THE CALIFORNIA ADMINISTRATIVE CODE, AND THE RULES AND REGULATIONS OF THE SHASTA REGIONAL TRANSPORTATION AGENCY

Board of Supervisors
County of Shasta
Redding, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States, the financial statements of the Transportation Development Act activities allocated to the County of Shasta (County) for transit and non-transit purposes as of and for the year ended June 30, 2022, and the related notes to the financial statements and have issued our report thereon dated January 24, 2023. The financial statements present only the Transportation Development Act activities allocated to the County for transit and non-transit purposes and are not intended to present fairly the financial position and results of operations of the County of Shasta in conformity with accounting principles generally accepted in the United States of America.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

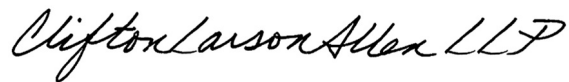

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the Transportation Development Act activities allocated to the County of Shasta for transit and non-transit purposes are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

In connection with our audit referred to above, we also performed an audit for compliance with the Transportation Development Act, the California Administrative Code, and the rules and regulations and allocation instructions of the Shasta Regional Transportation Agency, for the year ended June 30, 2022. In connection with our audit, we performed, to the extent applicable, the compliance tasks set forth in Section 6666 and 6667 of the rules and regulations of the California Administrative Code in the Transportation Development Act Statutes and Administrative Code of 1987. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
