Our mission is to enter into the lives of people who are stuck or lost and help them find their own avenues to fulfillment. We call ourselves 'Ambassadors of Hope'.

Our Philosophy:

Life is good — and it can be very difficult at times. None of us can do it alone because life is bigger than any individual person. We need each other sometimes to help us find our way through some of these bigger things such as being family, dealing with tragedy, or pursuing our dreams. Remi Vista, Inc. was founded on the principle that there is meaning in life even when life seems utterly meaningless and void of hope. We believe that meaning is relational and that we can make our greatest difference in this world by engaging individuals at the point where they are lost or stuck and by walking with them as they search for their own paths toward healing and wholeness. All of our services are designed to create opportunities for relational encounters that result in personal freedom and transformation. We recognize that such encounters only happen when we address people as equally human and when we can see things the way they see them. We relentlessly strive for excellence in our abilities to create these relational opportunities, especially for people who have been hurt or traumatized and for people of diverse backgrounds, beliefs, and experiences.
