ZONING PERMIT AND LIMITATIONS ON USE

**TEMPORARY OCCUPANCY OF AN EXISTING RESIDENCE WHILE
CONSTRUCTING A REPLACEMENT RESIDENCE**

Zoning Permit # _____ is approved, subject to the following criteria and limitations:

1. The requirements of all concerned governmental agencies having jurisdiction by law, including but not limited to the issuance of appropriate permits, shall be met.
2. This permit is granted for temporary occupancy of an existing legally-established residential structure while constructing a replacement structure, as shown on the approved site plan (Exhibit "A").
3. The existing residence to be replaced shall be a legally-established residential structure.
4. The subject property shall be located in a zone district that permits residential uses.
5. The term of the temporary occupancy of the existing residential structure shall be a maximum of one year from the date of issuance of a building permit for the replacement structure.
6. The existing one-family residence shall be converted to a residential accessory storage building or removed from the property, and properly disposed of within 45 days of final building permit inspection of the new residence, except when extenuating circumstances exist, and the Planning Director authorizes additional time. A building permit shall be obtained for the conversion of the existing one-family residence to a residential accessory storage building or a demolition building permit shall be obtained for the removal of the existing one-family residence at the time of permit issuance for the replacement residence.
7. In the event that the above conditions are not complied with, and the County is required to initiate abatement proceedings, or to take court action to enforce the conditions listed above, the property owner shall pay all reasonable and necessary court costs and attorney's fees incurred by the County.

EHD:

- 8.. All requirements of the Environmental Health Division relating to water supply and sewage disposal shall be met prior to issuance of the building permit.

CDF/SCFD:

9. All buildings constructed on parcels one gross acre or larger in size shall be setback a minimum of 30 feet from all property lines and road easements.
10. Untreated wood-shake or shingle roofing is not permitted. Roofing shall have a minimum class B fire retardant rating.
11. The applicant shall dispose of any brush, trees, or other vegetation cleared for construction or land development purposes prior to final inspection by the Building Division. Disposal shall be in accordance

with current Air Quality Management District regulations and State or local fire department burning permit regulations.

ADVISORY NOTICES:

- a) This zoning permit shall become automatically revoked without further action by Shasta County if the activity or use for which the permit was granted has not been actively and substantially commenced within two years of the date of its approval. Any application for an extension of time must be applied for prior to expiration of the permit.
- b) If the Planning Director determines that one or more grounds exist for revocation of this permit, the Planning Commission may set the matter for a hearing before it, in accordance with applicable provisions of the Shasta County Code.
- c) A conditional Certificate of Occupancy will be issued for the new one-family residence after all requirements noted on the final inspection are satisfied. A final Certificate of Occupancy will be issued once the conversion or removal of the existing dwelling has been completed.

OWNER AGREEMENT

I, the owner of property located at _____, identified as Assessor's Parcel Number _____, do hereby acknowledge that I have reviewed the criteria and limitations listed above, and agree to comply with them.

Generally, Zoning Permits and Residential Administrative Permits will not require the completion of the following sections: "Hazardous Site Review Statement", "Hazardous Materials Disclosure Statement", or "Military Land Use Compatibility", as part of this Application Form. These sections must be completed for all applications that require Planning Commission and/or Board of Supervisors approval.

I/We, the applicant, certify that the following responses are true and correct. Yes No

HAZARDOUS MATERIALS DISCLOSURE STATEMENT

Government Code Section 65850.2 requires the owner or authorized agent for any development project to disclose whether:

1. Compliance will be needed with the applicable requirements of Section 25505 and Article 2 (commencing with Section 25531) of Chapter 6.95 of Division 20 of the Health and Safety Code or the requirements for a permit for construction or modification from the air pollution control district or air quality management district exercising jurisdiction in the area governed by the County.

Yes No

2. The proposed project will have more than a threshold quantity of regulated substance in a process or will contain a source or modified source of hazardous air emissions.

Yes No

HAZARDOUS SITE REVIEW STATEMENT

Government Code Section 65962.5 (f) requires the applicant for any development project to consult specified state-prepared lists and submit a signed statement to the local agency indicating whether the project is located on an identified site. Under the statute, no application can be accepted as complete without this signed statement.

I/We certify that I/We have investigated this development project with respect to the Cal EPA's Cortese List Data Resources webpage and that my/our answers are true and correct to the best of my/our knowledge. My/Our investigation has shown that:

The project is NOT located on any of the lists compiled pursuant to Section 65962.(e) of the Government Code.

The project IS located on one of the lists compiled pursuant to Section 65962.(e) of the Government Code. Please specify the list, the date of the list, and the property's regulatory identification number:

MILITARY LAND USE COMPATIBILITY

Using the California Military Land Use Compatibility Analyst website, the owner or authorized agent has determined whether the project is located within 1,000 feet of a military installation, beneath a low-level flight path or within special use airspace as defined in Section 21098 of the Public Resources Code, and within an urbanized area as defined by Government Code Section 65944.

Yes No

Authorization to Enter Private Property

PROJECT# _____

Government Code Section 65105 authorizes County Planning Division personnel, in the performance of their duties, to enter property and make examinations and surveys which do not interfere with use of the land by those persons lawfully entitled to the possession thereof. Oftentimes other responsible and trustee agencies must also be consulted and given the opportunity to review and comment on proposed projects, necessitating their entry onto the property in order to obtain relevant information needed to process an application in a timely way.

If County and consulting agency personnel are not able to enter the project site/property, significant delays in the processing of the project, particularly the environmental review of the project, could occur and the project applicant may be required to hire consultants to submit information necessary to prepare additional environmental documents addressing the project site.

I have read and understand the foregoing. I authorize the County and other consulting personnel to enter the property located at:

_____ for the purposes of examining the property with respect to the proposed project/land-use, upon making reasonable efforts to give me a 24-hour advance notice of intended entry.

PLOT PLAN INSTRUCTIONS

(Rev: 01-03-23)

AN ACCURATE PLOT PLAN IS NECESSARY TO PROCESS YOUR PERMIT

A plot plan is necessary to establish a clear “snapshot” record of the correct development and use of the property. It may be helpful to think of how the property would look if you were flying above it and represent this on paper. You might start with an Assessor’s plat map (copies available at the Assessor’s office) for an accurate outline of your property.

An 8-1/2” x 11” size paper works well for drawing the property outline. Once the property outline is drawn, please draw the existing and proposed improvements (driveway, well, septic, disposal field, etc.), structures (home, garage, shop, etc.), uses (pasture, orchard, etc.), and features (creeks, drainages, etc.) for the property. Keep size proportionate, write in distances to show location, and label the use of all existing and proposed structures (such as house, mobile home, garage, or barn), as well as all items in the list below. (See attached example for guidance.)

Make sure the following are shown on the plot plan:

1. Property owner’s name
2. Assessor’s Parcel Number for the property
3. Address of property
4. North arrow and scale
5. Acreage of property
6. Dimensions/square footage and use of all buildings
7. Indicate whether there are mobile homes or houses and indicate whether there is a garage attached to the house and list the size/dimensions
8. Type and width of easements
9. Septic system and well location, both existing and proposed. Also show the distance to the neighbor’s septic system and well if less than 90 feet from your property line
10. Dedicated septic system expansion/replacement area (if on private sewage disposal system)
11. Roads and driveways with list length and width, turn radius (used for Fire Department and Public Works), and estimated grade
12. Drainages and waterways. Indicate distances and toe and/or top of bank including seasonal or dry creek beds, also include any ponds on the parcel or neighbor’s parcel
13. Location of soil profile pit and percolation test holes (for new septic systems)
14. Existing and proposed utility locations (electric, cable, phone, water including meter location(s), and sewer connection
15. All buildings connected to electric utilities and label if underground or on a pole
16. All structures connected to sewer and water (example: detached shop)
17. Nearest fire hydrant

Note: If your project involves grading (cuts, fills, etc.), indicate the areas of cut and fill, include erosion control measures, and provide a slope cross-section if greater than 5%.
