INTRODUCTION

In March 2008, Muni Financial completed the Shasta County and City of Redding Public Facilities Impact Fee Study (IFS). On May 6, 2008, the Shasta County Board of Supervisors (Board) adopted the proposed public facilities impact fees by Ordinance No. 665 as set forth in the IFS. On June 30, 2020, the Board adopted Ordinance No. 665-1 to retroactively suspend the July 1, 2020 annual adjustment of impact fees until such time as the Board lifts the suspension. On August 25, 2020, the Board adopted Ordinance No. 665-2 to establish a traffic impact fee exclusively applicable to mini-storage development operative retroactive to May 6, 2008.

The descriptions of the types of fees in the account category are as follows:

Public Protection – This fee is to generate revenue for public protection facilities needed to serve new development. Public Protection facilities serve both residents and businesses within both incorporated and unincorporated portions of the County. Therefore, fees coupled with public protection are based on the County's service population including residents and workers.

Public Health – This fee is to generate revenue to support the public health facilities needed to serve new development. Residents are the primary users of public health services. Nonresidential development does not tend to increase demand for public health services; therefore, the fee for public health facilities is based on residential population and excludes workers.

Library – This fee is to generate revenue to support the library books and technology facilities needed to serve new development. Residents are the primary users of libraries; therefore, the fees are based on the residential population and excludes workers.

Sheriff Patrol and Investigation – This fee is to generate revenue to support the sheriff patrol and investigation facilities needed to serve new development. Residents and businesses in the unincorporated portions of Shasta County benefit from law enforcement services provided by

the Sheriff's Office; therefore, the fee is based on the County's collective unincorporated residential and worker populations.

General Government – This fee is to generate revenue to support the general government facilities needed to serve new development. General government facilities serve both residents and business in both the incorporated and unincorporated portions of the County; therefore, this fee is based on services to both residents and workers within both the incorporated and unincorporated areas of the County.

Animal Control – This fee is to generate revenue to support the animal control facilities needed to serve new development. Residents are the primary users of animal control facilities; therefore, this fee is based on residential population for the unincorporated area of the County.

Fire Protection – This fee is to generate revenue to support fire protection facilities needed to serve new development in the County Fire Department service area. Residents and business are served by this facility in some unincorporated areas of the County; therefore, this fee is based on the service populations that include residents and workers. This fee applies only within the service area of the Shasta County Fire Department.

Traffic – This fee is to generate revenue to support improvements to the regional transportation system needed to serve new development. Residents and business are both served by the regional transportation system; therefore, this fee is based on new trip demand for the project for residential and business. These fees apply only to the South County Region (described in IFS section 12, exhibit 2).

City of Redding Parks – This fee shall not take legal effect until the County of Shasta and the City of Redding enter into an agreement regarding the use of these fees, and the County Board declares that the fee has taken effect. This fee is to generate revenue to support the County resident's share of planned improvements to these region-serving parks attributed to new development in unincorporated areas. Residents are the primary uses of the parkland; therefore, the demand for parks and facilities is based on residential population and excludes workers. When in effect, these fees apply only to the South County Region (legal description contained in Ordinance No. 665, Exhibit 2).

FEE USE

The Facilities Impact Fees shall be solely used (1) for the purposes described in the IFS; (2) for reimbursing the County for the development's fair share of those capital improvements already constructed by the County; (3) for reimbursing developers who have constructed public facilities described in the IFS or other facility master plans adopted from time to time by the Board; or (4) inter-account loans as permitted by the Mitigation Fee Act (Government Code, section 66000, et seq.).

IMPACT FEE TABLE (BASE FEE)

The Facilities Impact Fees are imposed in the amounts listed in the Impact Fee Table below. On July 1, 2008, the fees were 34% of the fees listed on the Impact Fee Table. On July 1, 2009, the fees were 67% of the fees listed on the Impact Fee Table plus the Building Cost

Index (BCI) Engineering News Review (ENR) index. On July 1, 2010, the fees were 100% of the fees listed on the Impact Fee Table plus the BCI ENR index.

As of July 1, 2011, all yearly increases/decreases will be based on the BCI ENR index.

The table below shows the Facilities Impact Fee expenditures to date since establishment of the fees of \$310,198.44, of which, \$82,287.75 are expenses due to costs of doing business. The Office Expense, Administration/Prof Services and Bank Charges Categories are for the establishment of the fund, oversight of the fund, reporting requirements and applicable bank charges. Of the Administration/Prof Services Fee (034800), \$39,829.45 was spent in FY

2019/20 for a new Impact Fee Study. This new Impact Fee Study began in FY2019/20 and is set to be completed in FY 2020/21. After a request for proposals process, a contract was negotiated and signed between the County and DTA Financial.

The Misc. XP prior period revenue adjustment (034309) in the amount of \$12,911.21 is not an expense to the fund, but rather an adjustment to prior period revenue based on refunds that were paid out against revenue collected in advance of completion in the prior fiscal year. Applicants with commercial projects are subject to the advance payment of these Facilities Impact Fees. If these fees are refunded it comes out of the revenue account it was collected in unless the fees were collected in a prior fiscal year, then they are paid out of the Misc XP Prior Period Rev. Adj (034309) account. This follows the Government Accounting Standards Board requirements.
