
Emergency Operations Plan

400.1 PURPOSE AND SCOPE

400.2 POLICY

The community, staff, volunteers, contractors, and inmates should have a well-researched and validated evacuation plan that can be implemented in the event any portion of this facility requires evacuating due to an emergency (e.g. fire, smoke, flood, storm) (15 CCR 1032(d)). All custody staff should be knowledgeable about the evacuation plan, policy, and procedures.

400.2.1 RECALL OF PERSONNEL

In the event that the Emergency Management Plan is activated, all employees of the Shasta County Sheriff's Office are subject to immediate recall. Employees may also be subject to recall during extraordinary circumstances as deemed necessary by the Sheriff or the authorized designee.

Failure to promptly respond to an order to report for duty may result in discipline.

400.3 EVACUATION PLAN

The Shasta County Sheriff's Office maintains an evacuation plan to be implemented in the event of a fire, natural disaster, or other emergency (15 CCR 1032(d)). At a minimum the evacuation plan shall address the following:

- Location of facility building and floor plans
- Procedures on how inmates are to be released from locked areas
- Relocation areas to be used for housing inmates in the event of a full or partial evacuation
- Notifications
- Training and drill requirements for staff
- Reporting requirements

The Captain shall ensure that the evacuation plan is maintained and updated as needed and is reviewed for accuracy at least annually by a qualified independent inspector and in coordination with the local fire authority.

A current copy of the evacuation plan shall be maintained in the Administration office and in the command area of each annex facility.

400.4 TRAINING DRILLS

The Captain should ensure that drills of the evacuation plan are conducted at least annually, or more often if required by code, for each shift and at all facility locations. Drills will include staff and volunteers. The local fire agency may be invited to participate in one or more drills annually.

Nonviolent and compliant inmates may participate. Violent and/or dangerous inmates or those known to be a flight risk will not be involved in the drills.

Drills should be designed to ensure that all staff members are proficient in their duties during each type of evacuation. Each drill should be documented as to its scope and participants. Upon completion of the drill, each staff member will be required to complete a written test to document knowledge and to show proficiency.
