

Explore Ways to Reduce Your Travel Footprint

Fall provides the perfect time to travel with numerous holiday festivities to celebrate, weather that's both not too hot or cold, and spectacular scenery to take in. If you are traveling this fall, try adopting eco-friendly travel ideas into your plans.

- Order appetizers instead of full meals to reduce food waste
- Turn off the lights, TV, and AC when leaving your hotel room
- Walk, bike, or use public transportation to see the sites
- Keep showers short and reuse towels
- Travel with a reusable water bottle and bag
- Buy locally made souvenirs like soaps and jams

There will be no delay in curbside collection service for Thanksgiving, Christmas, and New Year's.

BATTERIES

DID YOU KNOW?

Millions of batteries are sold every year around the world, and all are considered hazardous waste in California.

WHY RECYCLE YOUR BATTERIES?

- To keep harmful materials out of our landfill
- To keep people and property in our community safe
- To support sustainability and resource conservation
- To reduce fires

LITHIUM-ION BATTERIES

Lithium-ion battery fires can burn for hours or even days. Please ...

- Do not leave them plugged in for longer than it takes to charge
- Keep devices at room temperature
- Do not store devices in locations with direct exposure to sunlight or in hot vehicles
- Always place clear tape over the +/- terminals before storing with another lithium-ion battery

NEVER PLACE BATTERIES OF ANY KIND IN YOUR COLLECTION BIN!

LOCATE A BATTERY DISPOSAL SITE NEAR YOU!

Shasta County residents may dispose of their batteries for FREE at the City of Redding Household Hazardous Waste Facility located at 2255 Abernathy Lane, Redding, Tuesday-Saturday between 9:00 am and 4:00 pm. You can find alternative disposal sites at www.shastacounty.gov/waste-recycling or by scanning the QR Code to the right.
